

User Story of List Employees:

User Story Description: As an admin, I would like to view list all employees, so that I can read necessary information quickly.

Acceptance Criteria:

Field Name	Field Type	Field Value	Validation	Business Rules
Employee_id	Label(Integer-6 digit)	Database-queried	NA	NA
First_name	Label	Database-queried	NA	NA
Last_name	Label	Database-queried	NA	NA
Gender	Label	Database-queried	NA	NA
Email	Label	Database-queried	NA	NA
Phone_Number	Label	Database-queried	NA	NA
View	Button(Link)	NA	NA	In the applicable rules.
Edit	Button(Link)	NA	NA	In the applicable rules.

Applicable Rules:

- View button will redirect to the view page filled with the details of that user. The page is supposed to be the layout and the data would be fetched from the database.
- Edit button will redirect to the edit page for that employee. This data would be committed to the database
- The cards would be repeated for all the employees rows.
